Greetings Fellow Officials

**IV High School**

Tanner Smith  
Justin Wright  
Sheri Larson

**Josephine County Commissioners**

Dan DeYoung  
Herman Baertscheiger

Darin Fowler  
Michael Webber - Health Director

**Jackson County Commissioners**

Rick Dyer  
Caulleen Roberts

**County Sheriff**

Dave Daniel  
Nate Sickler

*We are a friend to your soul but in opposition to your project*

Visit <https://ivemedia.org/government-relations/> for email recipient list to issue documents and for the templet. The following document is a descriptive tutorial sample of information in the actual templet document.

OPEN LETTER WITH **COURTESY NOTICE OF LIABILITY** TO ALL OFFICIALS, AND, AGENT ADMINISTRATORS OF THE mRNA EXPERIMENTAL EUA VACCINES TO TEENAGE CHILDREN, AND, WITH OUT FULL INFORMED CONSENT.

I \_\_\_\_\_, hereby request this email document, or printed facsimile be submitted into the County Record, forthwith.

*This document is an "Open Letter" and I invite all community members and parents of teenage children, that agree with the statements as rendered below to "sign-on" with your endorsement. Sign it, copy it, and add it with your personal statement of concern, or affidavit, should you wish to issue one in behalf of the welfare of our children and in observance of the practice of precautionary principles. You may likewise be encouraged to issue your own documents "affidavit" separately, without endorsing this document, if you wish, to the contained recipient's addresses and listed emails.*

*(Visit [www.ivemedia.org](http://www.ivemedia.org) for recipient email lists.)*

1. No amount of money the COUNTY is getting (CARES Act, or other) from the STATE and the FEDERAL Government, via the BANKS and BIG PHARMA to promote children getting the experimental novel mRNA Emergency Use Authorization (EUA) vaccines, authorized by OREGON STATE, CDC and the WHO (Note, they are private corporations), will compensate for even one Child's life being lost.

2. Each administrator official is personally culpable for these mRNA experimental treatments issued on county lands, as trust agents for the people, as facilitated in Jackson and Josephine County with Commissioner's knowledge and authorization. Therefor they have a duty to be fully knowledgeable of the risk/benefits and to see to the full disclosure of all known information to attain informed consent of the treatment.

3. Each health department director, assistant, health official, and, or matrix of workers administering these mRNA spike protein generating therapeutic agents labeled as vaccines to qualify them as exempt from liability, "are hereby put on Notice Of Liability" with this email document, or as submitted in print or included with an affidavit and to all who are playing a role in conjunctive mRNA vaccine administration.

4. To Medical and Official directorate agents, you have your Oath to “Do no harm.” And any medical/ Doctoral professional directorates, you, especially, have your Hippocratic Oath. **WARNING! You are in jeopardy. You have a direct responsibility to properly asses risk/benefit of administration of the aforementioned experimental mRNA injection to minors.** Until you have full knowledge of the situation and access to all knowable consequences of an EUA drug or biological product, you are hereby urged to cease and desist in its administration or the acquiescence of any such administration of mRNA therapeutic (vaccine) to minors, especially in the absence of crucial mid and long term trial study data and analysis of adverse effects.

I, \_\_\_\_\_ am issuing this to all recipients as a Courtesy Notice of Liability, for your knowledge and benefit, that you, as the applicant, authorizer, or official in knowledge of minors being injected, to ALERT YOU to the ramifications and consequences of your actions. My purpose is to avert injuries and the death of children due to the administration and allowance of mRNA injections. We do not want to see you sued. Complying with a mass experiment, with its mounting evidence of injuries and death, subjecting it to the children, determined the least at risk from the alleged virus, is criminal. Please examine the full packet of material (attachments) that you may be well informed. If you can not contradict this information with solid evidence, then it stands as prima-facie fact.

In the following I have made the provision of attached exhibits to confirm claims, with explicit documentation, as evidence, data, and professional testimony to substantiate and necessitate the application of precautionary principles and common sense for the sake of risk reduction to our youth. Other exhibits are forthcoming, and are in discovery. Each person adopting this initiative to submit this “Courtesy Notice of Liability” may add their own package of findings in conjunction and compliment with this document. Your documents should contain at least 3 valid references. Use creditable facts from creditable sources.

I also urge all parties, including recipients, to forward this email and its attachments to State legislators, the State Senate, and Oregon Justices as they are all playing a role in allowing the administration of the mRNA injections to minors, and likewise culpable for injuries and death to our children of Oregon.

Again, any person may signing on, or can independently contribute their own findings.

A further expanded listing of other agents and officials involved with the administration or allowance of the mRNA vaccine delivery to minors, not listed here, will be added on to the existing recipient list roster.

PRESENTMENT OF EXHIBITS:

EXIBIT 1
